INDEPENDENT AUDITORS' REPORT

November 5, 2021

The Honorable Village President Members of the Board of Trustees Village of North Barrington, Illinois

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Village of North Barrington, Illinois, as of and for the year ended April 30, 2021, and the related notes to the financial statements, which collectively comprise the Village's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Village's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Village's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Village of North Barrington, Illinois, as of April 30, 2021, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Village of North Barrington, Illinois November 5, 2021 Page 2

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis as listed in the table of contents and budgetary information reported in the required supplementary information as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Village of North Barrington, Illinois' basic financial statements. The other supplementary information is presented for purposes of additional analysis and are not a required part of the basic financial statements.

The other supplementary information is the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

MANAGEMENT DISCUSSION AND ANALYSIS

Management's Discussion and Analysis April 30, 2021

Our discussion and analysis of the Village of North Barrington's financial performance provides an overview of the Village's financial activities for the fiscal year ended April 30, 2021. Please read it in conjunction with financial statements, which can be found in the basic financial statement section of this report.

FINANCIAL HIGHLIGHTS

- The Village's net position increased as a result of this year's operations. Net position of the governmental activities increased by \$647,327, or 19.2 percent.
- During the year, government-wide revenues for the primary government totaled \$1,781,465, while expenses totaled \$1,134,138, resulting in an increase to net position of \$647,327.
- The Village's net position totaled \$4,010,121 on April 30, 2021, which includes \$990,786 investment in capital assets, \$297,774 subject to external restrictions, and \$2,721,561 unrestricted net position that may be used to meet the ongoing obligations to citizens and creditors.
- The General Fund reported a surplus this year of \$479,883, resulting in ending fund balance of \$2,721,561, an increase of 21.4 percent.

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The Statement of Net Position and the Statement of Activities provide information about the activities of the Village as a whole and present a longer-term view of the Village's finances. For governmental activities, these statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the Village's operations in more detail than the government-wide statements by providing information about the Village's most significant funds.

Government-Wide Financial Statements

The government-wide financial statements provide readers with a broad overview of the Village's finances, in a matter similar to a private-sector business.

The Statement of Net Position reports information on all of the Village's assets and liabilities/deferred inflows of resources, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Village is improving or deteriorating. Consideration of other nonfinancial factors, such as changes in the Village's property tax base and the condition of the Village's infrastructure, is needed to assess the overall health of the Village.

The Statement of Activities presents information showing how the government's net position changed during the most recent fiscal year.

Management's Discussion and Analysis April 30, 2021

USING THIS ANNUAL REPORT – Continued

Both of the government-wide financial statements distinguish functions of the Village that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The Village only reports governmental activities. The governmental activities of the Village include general government, public safety, and streets and roads.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Village, like other local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Village are reported as governmental or fiduciary funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the Village's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate the comparison between governmental funds and governmental activities.

The Village maintains two individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund and the Motor Fuel Tax Fund, which are considered major funds. The Village adopts an annual appropriated budget for all of the governmental funds. A budgetary comparison schedule for these funds has been provided to demonstrate compliance with this budget.

Fiduciary Funds

Fiduciary funds are used to account for resources held in a custodial capacity for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the Village's own programs.

Management's Discussion and Analysis April 30, 2021

USING THIS ANNUAL REPORT - Continued

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the Village's budgetary comparison schedules for the General Fund and Motor Fuel Tax Fund.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net position may serve over time as a useful indicator of a government's financial position. The following tables show that in the case of the Village, assets exceeded liabilities/deferred inflows by \$4,010,121.

		Net Position		
	2021		2020	
Assets				
Current Assets	\$	4,081,034	3,416,616	
Capital Assets		990,786	1,033,409	
Total Assets		5,071,820	4,450,025	
Liabilities/Deferred Inflows of Resources				
Other Liabilities		378,357	398,388	
Deferred Inflows of Resources		683,342	688,843	
Total Liabilities/Deferred Inflows		1,061,699	1,087,231	
Net Position				
Investment in Capital Assets		990,786	1,033,409	
Restricted		297,774	87,707	
Unrestricted		2,721,561	2,241,678	
Total Net Position		4,010,121	3,362,794	

A large portion of the Village's net position, \$990,786 or 24.7 percent, reflects its investment in capital assets (for example, land, building improvements, land improvements, equipment/furniture/fixtures), less any related debt used to acquire those assets that is still outstanding. The Village currently does not have any capital-related debt outstanding. The Village uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Village's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Management's Discussion and Analysis April 30, 2021

GOVERNMENT-WIDE FINANCIAL ANALYSIS – Continued

An additional portion, \$297,774 or 7.4 percent, of the Village's net position represents resources that are subject to external restrictions on how they may be used. The remaining 67.9 percent, or \$2,721,561, represents unrestricted net position and may be used to meet the government's ongoing obligations to citizens and creditors.

	Change in Net Position			
		2021		2020
Revenues				
Program Revenues				
Charges for Services	\$	233,846		150,020

Personal Property Replacement Taxe	es	5,732		4,672
State Income Taxes		349,299		330,246
Sales and Use Taxes		231,326		186,520
Cannabis Taxes		2,430		-
Other General Revenues		26,467		64,451
Total Revenues		1,781,465		1,548,628
_				
Expenses				
General Government		554,664		589,574
Public Safety		418,518		418,345
Streets and Roads		160,956		668,247
Total Expenses		1,134,138		1,676,166
Change in Net Position		647,327		(127,538)
Net Position - Beginning		3,362,794		3,490,332
Net Position - Ending		4,010,121		3,362,794

Net position of the Village's governmental activities increased by 19.2 percent (\$3,362,794 in 2020 compared to \$4,010,121 in 2021). Unrestricted net position, the part of net position that can be used to finance day-to-day operations without constraints, totaled \$2,721,561 at April 30, 2021.

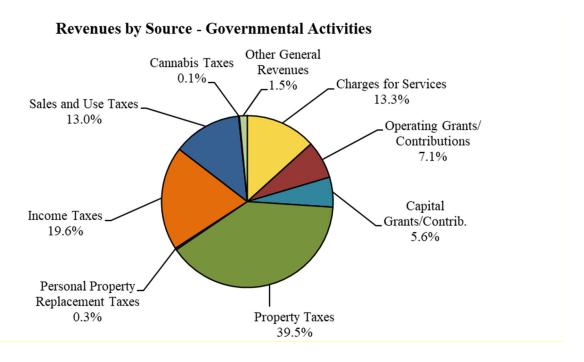

Management's Discussion and Analysis April 30, 2021

GOVERNMENT-WIDE FINANCIAL ANALYSIS – Continued

Governmental Activities

Revenues for governmental activities totaled \$1,781,465, while the cost of all governmental functions totaled \$1,134,138. This results in a surplus of \$647,327. In 2020, expenses of \$1,676,166 exceeded revenues of \$1,548,628, resulting in a deficit of \$127,538. Revenues for state shared revenues, including income and states/use taxes increased by \$19,053 and \$44,806, respectively. In addition, charges for services saw an increase of \$83,826 over last year. Also, in the current year the Village received a Build Illinois grant in the amount of \$100,405.

The following table graphically depicts the major revenue sources of the Village. It depicts very clearly the reliance of property taxes, income taxes and sales/use taxes to fund governmental activities. It also clearly identifies the less significant percentage the Village receives from charges for services and operating grants/contributions.

Management's Discussion and Analysis April 30, 2021

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

As noted earlier, the Village uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the Village's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

The Village's governmental funds reported combining ending fund balances of \$3,019,335, which is \$689,950, or 29.6 percent, higher than last year's total of \$2,329,385. Of the \$3,019,335 total, \$1,221,561, or approximately 40.5 percent, of the fund balance constitutes unassigned fund balance.

The General Fund reported a positive change in fund balance for the year of \$479,883, a increase of 21.4 percent. The Village was budgeting for an increase in fund balance of \$6,810. Actual revenues came in \$288,118 over budget and actual expenditures came in \$184,955 under budget. These variances are further outlined on the General Fund Schedule of Revenues, Expenditures and Changes in Fund Balance.

The General Fund is the chief operating fund of the Village. At April 30, 2021, unassigned fund balance in the General Fund was \$1,221,561, which represents 44.9 percent of the total fund balance of the General Fund, and represents 111.9 percent of expenditures.

The Motor Fuel Tax Fund reported an increase in fund balance for the year of \$210,067. Ending fund balance of \$297,774 is restricted for future streets and roads qualifying expenditures.

GENERAL FUND BUDGETARY HIGHLIGHTS

The Village did not make any budget amendments to the General Fund during the year. General Fund actual revenues for the year totaled \$1,571,398, compared to budgeted revenues of \$1,283,280. Intergovernmental state shared revenues, licenses, fees and permits, and miscellaneous were over budget. Taxes, fines and forfeitures, as well as interest income, were under budget for the year.

The General Fund actual expenditures for the year were \$184,955 lower than budgeted (\$1,091,515 actual compared to \$1,276,470 budgeted), due primarily to the Village implementing cost controlling measures during the fiscal year.

Management's Discussion and Analysis April 30, 2021

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

The Village's investment in capital assets as of April 30, 2021 was \$990,786 (net of accumulated depreciation). This investment in capital assets includes land, building improvements, land improvements, and equipment/furniture/fixtures.

	Capital Assets		
	Net of Accumulated Depreciation		
	2021 2020		2020
Land	\$	402,902	402,902
Building Improvements		486,031	509,132
Land Improvements		71,721	79,790
Equipment/Furniture/Fixtures		30,132	41,585
Totals		990,786	1,033,409

There were no capital asset additions in the current year.

Additional information on the Village's capital assets can be found in Note 3 of this report.

Debt Administration

At year-end, the Village had no outstanding debt.

State statutes limit the amount of general obligation debt a non-home rule governmental entity may issue to 8.625 percent of its total assessed valuation. The current debt limit for the Village is \$21,154,007.

Additional information on the Village's legal debt margin can be found in Note 3 of this report.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

The Village's elected and appointed officials considered many factors when setting the fiscal-year 2022 budget, including tax rates and fees that will be charged for its various activities. One of those factors is the local economy. The Village is faced with a similar economic environment as many other local municipalities, including the impact of the COVID-19 pandemic. As of the date of this report, the extent of the impact of COVID-19 on the Village's operations and financial position cannot be determined.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the Village's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional information should be directed to the Village Hall at 111 Old Barrington Road, North Barrington, Illinois 60010.

BASIC FINANCIAL STATEMENTS

The basic financial Statements include integrated sets of financial statements as required by the GASB. The sets of statements include:

- Government-Wide Financial Statements
- Fund Financial Statements

Governmental Funds

Fiduciary Fund

In addition, the notes to the financial statements are included to provide information that is essential to a user's understanding of the basic financial statements.

Notes to the Financial Statements April 30, 2021

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Village of North Barrington (Village), Illinois operates under a Board of Trustees form of government. The government-wide financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). The more significant of the Village's accounting policies established in GAAP and used by the Village are described below.

REPORTING ENTITY

In determining the financial reporting entity, the Village complies with the provisions of GASB Statement No. 61, "The Financial Reporting Omnibus – an Amendment of GASB Statements No. 14 and No. 34," and includes all component units that have a significant operational or financial relationship with the Village. Based upon the criteria set forth in the GASB Statement No. 61, there are no component units included in the reporting entity.

BASIS OF PRESENTATION

Government-Wide Statements

The Village's basic financial statements include both government-wide (reporting the Village as a whole) and fund financial statements (reporting the Village's major funds). The Village's general government, public safety and streets and roads services are classified as governmental activities.

In the government-wide Statement of Net Position, the governmental activities column is presented on a consolidated basis. The Village's net position is reported in three parts: net investment in capital assets; restricted; and unrestricted. The Village first utilizes restricted resources to finance qualifying activities.

The government-wide Statement of Activities reports both the gross and net cost of each of the Village's functions (general government, public safety, streets and roads, etc.). These functions are supported by general government revenues (property taxes, certain intergovernmental revenues, and charges for services, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, which include 1) changes to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. The net costs (by function) are normally covered by general revenue (property tax, intergovernmental revenues, interest income, etc.). The Village does not allocate indirect costs. This government-wide focus is more on the sustainability of the Village as an entity and the change in the Village's net position resulting from the current year's activities.

Notes to the Financial Statements April 30, 2021

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

BASIS OF PRESENTATION – Continued

Fund Financial Statements

The financial transactions of the Village are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets/deferred outflows, liabilities/deferred inflows, fund equity, revenues and expenditures/expenses. The Village's funds are all reported as governmental funds. The emphasis in fund financial statements is on the major funds.

GASB Statement No. 34 sets forth minimum criteria (percentage of the assets/deferred outflows, liabilities/deferred inflows, revenues or expenditures/expenses) for the determination of major funds.

A fund is considered major if it is the primary operating fund of the Village or total assets/deferred outflows, liabilities/deferred inflows, revenues, or expenditures/expenses of the individual governmental fund are at least 10 percent of the corresponding total for all governmental funds combined.

The various funds are reported by generic classification within the financial statements. The following fund type is used by the Village:

Governmental Funds

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the Village:

General Fund accounts for all financial resources except those required to be accounted for in another fund. The General Fund is a major fund.

Special revenue funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. The Village maintains one special revenue fund. The Motor Fuel Tax Fund, a major fund, accounts for state shared motor fuel tax revenues that are legally restricted to maintenance and construction of streets, sidewalks, alleys and traffic signals.

Fiduciary Funds

Fiduciary funds are used to report assets held in a trustee or custodial capacity for others and therefore are not available to support Village programs. The reporting focus is on net position and changes in net position and is reported using accounting principles similar to proprietary funds.

Custodial Funds are used to account for assets held by the Village in a purely custodial capacity. The Special Service Areas Fund accounts for the collection of property taxes within special taxing districts and payments of related special service areas debt.

Notes to the Financial Statements April 30, 2021

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

BASIS OF PRESENTATION – Continued

Fund Financial Statements - Continued

Fiduciary Funds – Continued

The Village's custodial fund is presented in the fiduciary fund financial statements. Since by definition these assets are being held for the benefit of a third party (private parties) and cannot be used to address activities or obligations of the Village, these funds are not incorporated into the government-wide statements.

MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied.

Measurement Focus

The government-wide Statement of Net Position and the Statement of Activities are presented using the economic resources measurement focus as defined below. In the fund financial statements, the "current financial resources" measurement focus or the "economic resources" measurement focus is used as appropriate.

All governmental funds utilize a "current financial resources" measurement focus. Only current financial assets/deferred outflows and liabilities/deferred inflows are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.

Custodial funds utilize an "economic resources" measurement focus. The accounting objectives of the "economic resources" measurement focus are the determination of operating income, changes in net position (or cost recovery), financial position, and cash flows. All assets/deferred outflows, liabilities/deferred inflows (whether current or noncurrent) associated with their activities are reported.

Basis of Accounting

The government-wide Statement of Net Position and Statement of Activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability/deferred inflows are incurred or economic asset used. Revenues, expenses, gains, losses, assets/deferred outflows, and liabilities/deferred inflows resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

Notes to the Financial Statements April 30, 2021

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

MEASUREMENT FOCUS AND BASIS OF ACCOUNTING – Continued

Basis of Accounting – Continued

In the fund financial statements, governmental funds are presented on the modified accrual basis of accounting. Under this modified accrual basis of accounting, revenues are recognized when "measurable and available." Measurable means knowing or being able to reasonably estimate the amount.

Available means collectible within the current period or within sixty days after year-end. The Village recognizes property taxes when they become both measurable and available in accordance with GASB Codification Section P70. A sixty-day availability period is used for revenue recognition for all other governmental fund revenues. Expenditures (including capital outlay) are recorded when the related fund liability is incurred, except for general obligation bond principal and interest which are recognized when due, as applicable. In applying the susceptible to accrual concept under the modified accrual basis, those revenues susceptible to accrual are property taxes, sales and use taxes, licenses and interest revenue. All other revenues are not susceptible to accrual because generally they are not measurable until received in cash.

All custodial funds utilize the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used.

ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITION OR EQUITY

Cash and Investments

For purpose of the Statement of Net Position, the Village's cash and cash equivalents are considered to be cash on hand, demand deposits, and cash with fiscal agent. Investments are generally reported at fair value. Short-term investments are reported at cost, which approximates fair value. For investments, the Village categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The Village has no investments.

Receivables

In the government-wide financial statements, receivables consist of all revenues earned at year-end and not yet received. Allowances for uncollectible accounts receivable are based upon historical trends and the periodic aging of accounts receivable. Major receivables balances for governmental activities include property taxes.

Notes to the Financial Statements April 30, 2021

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITION OR EQUITY - Continued

Deferred Outflows/Inflows of Resources

Deferred outflow/inflow of resources represents an acquisition/reduction of net position that applies to a future period and therefore will not be recognized as an outflow of resources (expense)/inflow of resources (revenue) until that future time.

Capital Assets

Capital assets purchased or acquired with an original cost of more than \$500 are reported at historical cost or estimated historical cost. Contributed assets are reported at acquisition value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expenses as incurred.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. General capital assets are long-lived assets of the Village as a whole. When purchased, such assets are recorded as expenditures in the governmental funds and capitalized. The valuation basis for general capital assets is historical cost, or where historical cost is not available, estimated historical cost based on replacement costs.

Depreciation on all assets is computed and recorded using the straight-line method of depreciation over the following estimated useful lives:

Building Improvements	10-50 Years
Land Improvements	15 Years
Equipment/Furniture/Fixtures	5-10 Years

Net Position

In the government-wide financial statements, equity is classified as net position and displayed in three components:

Investment in Capital Assets – Consists of capital assets, including restricted capital assets, net of accumulated depreciation.

Restricted – Consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislations.

Unrestricted – All other net position balances that do not meet the definition of "restricted" or "investment in capital assets."

Notes to the Financial Statements April 30, 2021

NOTE 2 – STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

BUDGETARY INFORMATION

All departments of the Village submit budget requests for appropriation to the Board of Trustees for review and approval. The Board of Trustees holds public hearings and formally approves the budget. The budget is based on the cash basis of accounting, which does not differ significantly from the basis used for financial statement reporting. The budget lapses at fiscal year-end. Expenditures may not legally exceed budgeted appropriations at the fund level.

NOTE 3 – DETAIL NOTES ON ALL FUNDS

DEPOSITS AND INVESTMENTS

The Village maintains a cash and investment pool that is available for use by all funds. Each fund type's portion of this pool is displayed on the combined balance sheet as "cash and investments." In addition, investments are separately held by several of the Village's funds.

Permitted Deposits and Investments – Statutes authorize the Village to make deposits/invest in commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. Agencies, obligations of States and their political subdivisions, credit union shares, repurchase agreements, and commercial paper rated within the three highest classifications by at least two standard rating services

Interest Rate Risk, Credit Risk, Concentration Risk, and Custodial Credit Risk

Deposits. At year-end, the carrying amount of the Village's deposits totaled \$3,299,543 and the bank balances totaled \$3,330,346.

Interest Rate Risk. Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The Village's investment policy states that the Village's investment portfolio shall remain sufficiently liquid to enable the Village to meet all operating requirements which may be reasonably anticipated in any Village fund. The Village has no investments at year-end.

Credit Risk. Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Besides investing in securities authorized by State Statutes, the Village's investment policy does not further limit investment choices. The Village has no investments at year-end.

Concentration Risk. Concentration of credit risk is the risk of loss attributed to the magnitude of the Village's investment in a single issuer. The Village's investment policy states that investments shall be diversified to eliminate the risk of loss resulting on over concentration in a specific maturity, issuer, or class of securities. At year-end, the Village does not have any investments over 5 percent of the total cash and investment portfolio (other than investments issued or explicitly guaranteed by the U.S. government and investments in mutual funds, external investment pools, and other pooled investments).

Notes to the Financial Statements April 30, 2021

NOTE 3 – DETAIL NOTES ON ALL FUNDS – Continued

DEPOSITS AND INVESTMENTS – Continued

Interest Rate Risk, Credit Risk, Concentration Risk, and Custodial Credit Risk - Continued

Custodial Credit Risk. In the case of deposits, this is the risk that in the event of a bank failure, the Village's deposits may not be returned to it. The Village's investment policy requires that funds on deposit in excess of FDIC limits must be secured by some form of collateral, witnessed by a written agreement and held at an independent, third-party institution in the name of the Village. The collateralization level will be 100%-110% of the deposit balance, depending on the type of security for collateralization. At year-end, the entire amount of the bank balance of deposits was covered by collateral, federal depository or equivalent insurance.

For an investment, this is the risk that in the event of the failure of the counterparty, the Village will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. The Village's investment policy states that all security transactions, including collateral for repurchase agreements, entered in to by the Village shall be conducted on a delivery-versus-payment (DVP) basis. Securities will be held by an independent, third-party custodian designated by the Village and evidenced by safekeeping receipts and a written custodial agreement. The Village has no investments at year-end.

PROPERTY TAXES

Property taxes for the 2020 levy attach as an enforceable lien on January 1, on property values assessed as of the same date. Taxes are levied by December of the subsequent fiscal year (by passage of a Tax Levy Ordinance). Tax bills are prepared by Lake County and are payable in two installments, on or about June 1 and September 1. The County collects such taxes and remits them periodically.

INTERFUND BALANCES

Interfund balances result from the time lag between when transactions are recorded in the accounting system and payments between funds are made. The composition of interfund balances as of the date of this report, is as follows:

Receivable Fund	Payable Fund	Amount
General	Motor Fuel Tax	\$ 146,532

Notes to the Financial Statements April 30, 2021

NOTE 3 – DETAIL NOTES ON ALL FUNDS – Continued

CAPITAL ASSETS

Governmental capital asset activity for the year was as follows:

	E	Beginning			Ending
]	Balances	Increases	Decreases	Balances
Nondepreciable Capital Assets					
Land	\$	402,902	-	-	402,902
Depreciable Capital Assets					
Building Improvements		1,091,028	-	-	1,091,028
Land Improvements		121,484	-	-	121,484
Equipment/Furniture/Fixtures		266,582	-	-	266,582
		1,479,094	-	-	1,479,094
Less Accumulated Depreciation					
Building Improvements		581,896	23,101	-	604,997
Land Improvements		41,694	8,069	-	49,763
Equipment/Furniture/Fixtures		224,997	11,453	-	236,450
		848,587	42,623	-	891,210
Total Net Depreciable Capital Assets		630,507	(42,623)	-	587,884
Total Net Capital Assets		1,033,409	(42,623)	-	990,786

Depreciation expense of \$42,623 is charged to the general government function.

LONG-TERM DEBT

Noncommitment Debt - Special Service Area Bonds

Special service area bonds outstanding as of the date of this report totaled \$10,145,000. These bonds are not an obligation of the government and are secured by the levy of an annual tax on the real property within the special service area. The government is in no way liable for repayment but is only acting as agent for the property owners in levying, collecting the tax, and forwarding the collections to bondholders.

Notes to the Financial Statements April 30, 2021

NOTE 3 – DETAIL NOTES ON ALL FUNDS – Continued

LONG-TERM DEBT – Continued

Legal Debt Margin

Chapter 65, Section 5/8-5-1 of the Illinois Compiled Statutes provides, "...no municipality having a population of less than 500,000 shall become indebted in any manner or for any purpose, to an amount, including existing indebtedness in the aggregate exceeding 8.625% on the value of the taxable property therein, to be ascertained by the last assessment for state and county purposes, previous to the incurring of the indebtedness or, until January 1, 1983, if greater, the sum that is produced by multiplying the municipality's 1978 equalized assessed valuation by the debt limitation percentage in effect on January 1, 1979."

Assessed Valuation - 2020	\$ 245,263,853
Legal Debt Limit - 8.625% of Assessed Value	21,154,007
Amount of Debt Applicable to Limit	
None	
Legal Debt Margin	21,154,007

FUND BALANCE CLASSIFICATIONS

In the governmental fund financial statements, the Village considers restricted amounts to have been spent when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available. The Village first utilizes committed, then assigned and then unassigned fund balance when an expenditure is incurred for purposes for which all three unrestricted fund balances are available.

Nonspendable Fund Balance. Consists of resources that cannot be spent because they are either: a) not in a spendable form; or b) legally or contractually required to be maintained intact.

Restricted Fund Balance. Consists of resources that are restricted to specific purposes, that is, when constraints placed on the use of resources are either: a) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or b) imposed by law through constitutional provisions or enabling legislation.

Notes to the Financial Statements April 30, 2021

NOTE 3 – DETAIL NOTES ON ALL FUNDS – Continued

FUND BALANCE CLASSIFICATIONS – Continued

Committed Fund Balance. Consists of resources constrained (issuance of an ordinance) to specific purposes by the government itself, using its highest level of decision-making authority, the Board of Trustees; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest-level action to remove or change the constraint.

Assigned Fund Balance. Consists of amounts that are constrained by the Board of Trustees' intent to be used for specific purposes but are neither restricted nor committed. Intent is expressed by a) the Board of Trustees itself or b) a body or official to which the Board of Trustees has delegated the authority to assign amounts to be used for specific purposes. The Village's highest level of decision-making authority is the Board of Trustees, who is authorized to assign amounts to a specific purpose.

Unassigned Fund Balance. Consists of residual net resources of a fund that has not been restricted, committed, or assigned within the General Fund and deficit fund balances of other governmental funds.

The following is a schedule of fund balance classifications for the governmental funds as of the date of this report:

	- General	Special Revenue Motor Fuel Tax	Totals
Fund Balances Restricted			
Streets and Roads	\$ -	297,774	297,774
Committed Capital Projects	 1,500,000	-	1,500,000
Unassigned	1,221,561	-	1,221,561
Total Fund Balances	 2,721,561	297,774	3,019,335

NET POSITION CLASSIFICATION

Investment in capital assets was comprised of the following as of April 30, 2021:

Governmental Activities

Capital Assets - Net of Accumulated Depreciation

\$ 990,786

Notes to the Financial Statements April 30, 2021

NOTE 4 – OTHER INFORMATION

RISK MANAGEMENT

The Village is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; natural disasters; and injuries to the Village's employees. The Village has purchased insurance from private insurance companies. Risks covered included certain types of liabilities and bonds. Premiums have been displayed as expenditures/expenses in appropriate funds. There were no significant changes in insurance coverages from the prior year and settlements did not exceed insurance coverage in any of the past three fiscal years.

CONTINGENT LIABILITIES

Litigation

The Village is not a defendant in any lawsuits.

Grants

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the Village expects such amounts, if any, to be immaterial.

Financial Impact of COVID-19

In March 2020, the World Health Organization declared the COVID-19 virus a public health emergency. As of the date of this report, the extent of the impact of COVID-19 on the Village's operations and financial position cannot be determined.

RETIREMENT OBLIGATIONS

The Village does not participate in either the Illinois Municipal Retirement Fund or a deferred compensation plan. Instead, employees are covered by social security.

OTHER POST-EMPLOYMENT BENEFITS PLAN

The Village has evaluated its potential other post-employment benefits liability. Former employees who choose to retain their rights to health insurance through the Village are required to pay 100% of the current premium. However, there is minimal participation. As the Village provides no explicit benefit, and there is minimal participation, there is no material implicit subsidy to calculate in accordance with GASB Statement No. 75, Accounting and Financial Reporting for Post-Employment Benefits Other Than Pensions. Therefore, the Village has not recorded a liability as of April 30, 2021.

Notes to the Financial Statements April 30, 2021

NOTE 4 – OTHER INFORMATION – Continued

SUBSEQUENT EVENT

On March 11, 2021, the American Rescue Plan Act of 2021 was signed into law. This act provides \$350 billion in funding for local governments. The Village has been allocated \$401,307 to be received in two installments. On September 15, 2021 the Village received their first installment of \$200,654.
